

NEW VISITOR INFORMATION TRIAL

The Steelers Club are pleased to partner with Destination Wollongong to trial a new system of making available visitor information, across the City, by becoming the first entity in the new '**Visitor Information Network**'.

Once the trial is completed and information gathered from this trial a network of various locations across the LGA will be set up to have available information for our visitors – supplementing the Southern Gateway Information Centre and the readily available digital visitor information.

Steelers Staff will assist visitors with maps, guides and information and a direct-line to the Destination Wollongong's Visitor Information Team, for other enquiries to be answered.

The Steelers Club will proudly display the **Wollongong Info** brand, with indoor and outdoor signage and the information will be available to all.
